Dear Mr. Pruefer;

In November 2011, I expressed J & R Hall Transport's satisfaction with the performance of XT-Cat on our demo units for the Cummins, Detroit and Paccar engines in our fleet.

In months following, we continued to monitor our results and expanded our number of units. Month after month, we continued to see positive results and have now ordered enough units to do our complete highway fleet. We have begun installing units on our trucks, even before they get put into service.

As promised, we will continue to share our monthly fuel reports with you, for as long as you would like, and I am willing to accept calls from any of your prospective CaT customers and share with them our first-hand experience.

Thank you,

A handwritten signature in black ink, appearing to read "Jeff Hall", is written over a light blue horizontal line.

Jeff Hall
